

Use the doubling machine to double the numbers.

Double is

+ =

0	0	1	1	2	2	3	3	4	4
5	5	6	6	7	7	8	8	9	9
10	10	11	11	12	12	13	13	14	14
15	15	16	16	17	17	18	18	19	19
20	20								

Cut the numbers out to put them into the machine. Write a list of all the double you make. There are some blank squares in case you need some extra numbers.
