

Paper Dragon

You will need:

Dragon Template (in colour or black and white)

Coloured pens or pencils (if using the black and white Dragon Template)

Collage materials for decoration, such as pom-poms, sequins or coloured feathers (optional)

Scissors

Glue

Sticky tack and two straws (optional)

Instructions

1. Print out the desired Dragon Template (either in colour or black and white).
2. Colour and decorate as you wish, to make the dragon really stand out.
3. Cut out the two strips for the body.
4. Fold along each line to produce a zigzag effect.
5. Glue part A to part A to make one long body.
6. Cut out the feet and stick these onto the body so that they are spaced out along each side.
7. Cut out the head and stick it to the front of the body.
8. Cut out the tail and stick it to the end of the body.
9. You could even use sticky tack to stick a straw under the head and a straw under the tail of your dragon to make it dance!
